Place this template in a separate layer
in your layout program and delete or turn off
before sending/exporting your file.

Trim —————→
Edge of page.

← Margin

For best results keep text
and images that must be
seen and read at least
1/8" from edge of page.

Bleed —————→

For borderless edges, extend images, photos and/or solid background
colors 1/8" beyond the edge of the page. This area (yellow) will be
trimmed during the finishing process. It should not contain any
information you intend to be seen or read.
